

¡SWEET GUSTO!

Finest Produce of the Americas®

OUR STORY

Many years ago (1990) John Battle went to South America with a team of agronomists to pursue the capabilities of growing, harvesting and packing a sweet onion that could one day be marketed during the winter months in the USA. After three years of trials and grower training, we achieved a full shipping season.

The goal was to grow the best sweet onion for the conditions and provide North American retailers with an entirely new category. As that goal was met, we changed produce aisles across the country. We have also increased the American consumer's expectations of the taste and quality of the entire onion category.

Twenty years after first traveling to South America, the ¡Sweet Gusto!® was born. Compiling the premiere growers in Peru, Chile, Mexico and the United States, ¡Sweet Gusto! has earned the title of the Finest Produce of the Americas. Great Lakes International Trading, Inc is the importer, packer and sole distributor of the ¡Sweet Gusto! brand.

All facilities are Global Gap certified compliant. Great Lakes International Trading, Inc is a C-TPAT Certified importer and routinely provides seasonal inspections of all facilities to ensure compliance. All domestic packing facilities are Primus Lab certified. Food safety is a priority in achieving our ultimate goal of providing the finest quality fruit available.

Enjoy the Finest Produce of the Americas® with ¡Sweet Gusto! while watching your sales grow and your consumers return for the best of the best!
